CONTENTS OF VOLUME XI.

No. XXI.

I. MEDICAL INSTITUTIONS OF NAPLES.

Osservazioni sopra il celebre Stabilimento D'Aversa nel Regno di Napoli e sopra Molti altri spedali d'Italia destinati alla Reclusione e cura de' Pazzi, con alcune considerazioni sopra i perfezionamenti di che sembra suscettivo questo genere di Stabilimenti. Opera del Dottor Domenico Gualandi, Medico direttore de' Dementi nello spedale di S. Orsola in Bologna, &c. &c. 17

II. BROWN'S MEDICAL ESSAYS.

Medical Essays on Fever, Inflammation, Rheumatism, Diseases of the Heart, &c. &c. By Joseph Brown, M.D. of the Royal College of Physicians, of the Royal Medical Society of Edinburgh, and one of the Physicians of the Sunderland Infirmary. 62

III. ANDRAL ON DISEASES OF THE CHEST.

Clinique Medicale, ou Choix d'Observations recuillies a l'Hopital de la Charité (Clinique de M. Lermenier). Par G. Andral, Professeur a la Faculté de Medecine de Paris.

Clinical Reports, or Selected Cases drawn from the practice of M. Lermenier in the Hospital of La Charité. By G. Andral. 89

IV. GROSS ON THE BONES AND JOINTS.

The Anatomy, Physiology, and Diseases of the Bones and Joints. By Samuel D. Gross, M.D. 102

V. EBERLE'S PRACTICE OF MEDICINE.

A Treatise on the Practice of Medicine. In two volumes. By John Eberle, M.D. Professor of Materia Medica and Obstetrics in Jefferson Medical College, Member of the American Philosophical Society, &c. &c. 120

VI. RECAMIER'S TREATISE ON CANCER.

Recherhes sur la traitement du Cancer, par la compression Methodique simple ou combinee, et sur l'histoire generale de la meme maladie: suivies de Notes, 1. Sur les forces et la dynametrie vitales; 2. Sur l'inflammation et l'etat febrile. Par J. C. A. Recamier, Medecin de l'Hotel Dieu de Paris, Professeur, &c. &c. 160

VII. NEW YORK PHARMACOPŒIA.

"The Pharmacopœia of the United States of America: by the authority of the General Convention for the Formation of the American Pharmacopœia, held in 1830. Second edition, from the first edition published in 1820, with additions and corrections." 178

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. Human Horns. 2. Bicephalous Child. . . . 201

II. Physiology.—3. Mr Dobson on the Spleen. 4. Nature of the Globules of the Blood. 5. The Eye. 6. On the Animal Temperature in different Latitudes. 202

III. Pathology.—7. Ovarian Dropsy of great magnitude. 8. Softening of the Uterus. 9. Disorganization of the Epidermis occurring in new born Infants. 10. Neuralgia Rheumatica of the Diaphragm. 11. Cancer of the Pancreas. 12. Partial Gangrene of the Lungs, terminating favourably. 13. Case of Trismus from decayed Teeth and Cold. 14. Inflammation of the Inferior Cava—Œdema of the Lower Extremities—Circulation by Anastomosis. 15. Arachnoiditis Spinalis. 16. Hypertrophy of the Muscular Coat of the Stomach. 17. Enlargement of the Sub-Maxillary Gland, caused by a Bristle introduced into the Duct of Wharton. 18. State of the Salivary Glands when un-

der the Mercurial Influence. 19. Membranous Inflammation of the Cheek. 20. Small pox and Varioloid Epidemic in Copenhagen. 21. Cases showing the effects of the suppression of habitual evacuations. 205

IV. Therapeutics.—22. Treatment of Leucorrhœa. 23. Treatment of Strumous Iritis. 24. Acetate of Morphia in various diseases. 25. Treatment of Amaurosis by the external application of Strychnia. 26. Syphilis cured in an Infant by Mercurial Frictions, applied to a Goat that suckled it. 27. Dropsy treated with Veratria. 28. Importance of Diet in Urticaria. 29. Treatment of Puerperal Fever. 30. Effects of the contact of Metallic Rods in Catalepsy. 31. Effects of bleeding in Scarlatina. 32. On the employment of Galvanism in Hydrophobia. 33. Chronic Dysentery cured by the Blue Pill and a Mucilaginous Diet. 34. On the employment of Rhus Toxicodendron in Paralysis. 35. Treatment of Dysmenorrhœa. 36. Case of the Bite of a Rattlesnake (Crotalus durissus, Linn.). 217

V. Medical Jurisprudence.—37. A case of poisoning from Arsenious Acid, which was detected in the Stomach after death. 38. Accusation of Poisoning with Arsenic and contradictory testimony of Medico-Legal Jurists. 229

VI. Materia Medica and Pharmacy.—39. Ergot possessed of the power of arresting Hemorrhages. 40. Polygala Senega. 41. Effects of Colchicum upon the Urinary Secretion, from a paper by Dr Kuhn, contained in the Revue Medicale for July 1830. 42. Chloride of Lime. 43. Effects of Medicines upon the System in Health. 44. Sinapisms. 45. Salicine. 46. Bromides of Mercury. 47. Acidulous Phosphate of Quinia. 48. Cainca. 49. Sulphate of Quinia administered in a new mode. 50. Different kinds of Rhubarb distinguished by means of Ioduretted Hydriodic Acid. 51. Analysis of the leaves of the Uva Ursi. 52. Volatile Oil of Bitter Almonds. 233

VII. Surgery.—53. New Instrument for extirpating New Tonsils. 54. Ruyschenberger's Cases: 1st, Fistula in Ano; 2d, Stricture of Urethra, and Incontinence of Urine; 3d, Aneurism of the Arteria Innominata, with diagrams. 55. Fracture of the Cranium, accompanied with loss of Brain and Hernia Ce-

rebri; successfully treated. 56. Rupture of the Intestine Jejunum. 57. Aneurism of the Aorta, rupture of. 58. Mrs Denmark's Case. 59. Radical cure of Hernia. 60. Excision of a Carious Rib. 61. Laryngotomy in Trismus Nascentium. 62. Strangulated Hernia. 63. Extirpation of the Uterus. 239

VIII. Midwifery.—64. Abortion. 65. Prolapsus Uteri. 66. Gastrotomy, successfully performed after a Rupture of the Uterus. 67. Rupture of the Perinæum. 251

IX. Chemistry.—68. Light emitted during the compression of Gases. 69. Variations in the Carbonic Acid of the Atmosphere. 70. Peculiar Vegetable Acid. 71. Arsenic detected in common Salt, by MM. A. Latour and Lefrancois. 72. Hematosin and Globulin; by M. Lecanu. 73. Caseiform matter on the Skin of New-born Infants, by M. Peschier of Geneva. 74. Siliceous Calculus. 75. Penetrativeness of Fluids, by Dr Mitchell. 254

MISCELLANEOUS.

Observations on the Blood. By W. Stevens, M.D. &c. &c.—Gerardin on the Use of Ergot in the United States.—Danish Bibliothec for 1828—1829.—Notices of New Works.—Meteorological Table. 258

No XXII.

VIII. GAMA ON INJURIES OF THE HEAD.

Traité des Plaies de Tête et de l'Encéphalité, principalement de celle qui leur est consecutive: ouvrage dans lequel sont discutees plusieus questions relatives aux fonctions du systeme nerveux en generale. Par J. P. Gama, D.M., Chirurgien in chef, premier professeur a l'Hopital militaire d'instruction du Val-de-Grace, &c. &c. &c. Paris, 1830. 261

IX. M'CULLOCH ON REMITTENT AND INTERMITTENT DISEASES.

An Essay on the Remittent and Intermittent Diseases, including, generically, Marsh Fever and Neuralgia: comprising, under the former, various anomalies, obscurities, and consequences; and, under a new systematic view of the latter, treating of Tic Doloureux, Sciatica, Headach, Ophthalmia, Toothach, Palsy, and many other modes and consequences of this generic disease. By John M'Culloch, M.D., F.R.S., &c. &c., Physician in ordinary to his Royal Highness Prince Leopold of Saxe Cobourg. Philadelphia. Carey & Lea, 1830. (Reprint from the London edition.) 291

X. ANATOMY AND PHYSIOLOGY OF THE GANGLIONIC NERVOUS SYSTEM.

Recherches Experimentales sur les fonctions du Systeme nerveux ganglionaire, et sur leurs applications à la Pathologie. Par J. L. Brachet, D.M. Medecin de l'Hotel Dieu de Lyon, &c. Paris, 1830. pp. 447.

De Nervi Sympathetici Humani Fabrica, Usu et Morbis Commentatio Anatomico Physiologico-Pathologica. Tabulis æneis et lithographicis illustrata. Auctore Joh. Frid. Lobstein, Medicinæ Clinices et Anatomiæ Nosocomi Civium Medico Obstetrico Primario; Plurium Societ. Medicorum Sodali. Parigium, 1823, 4to, pp. 174. 305

XI. GANGRENE OF THE MOUTHS OF CHILDREN.

Der Wasserkrebs der Kinder; von Dr A. L. Richter, Arzt des Fredrich-Wilhelm-Med. Chirurg. Instituts. Staabs-arzt, &c. 8vo. Berlin, 1828.

Beobachtungen und Bemerkungen über den Wasserkrebs; vom Dr C. C. Hueter, Gehülfsarzte bei der Chirurgischen abtheilung des Land Krankenhauses zu Marburg. 8vo. Berlin, 1829. 363

XII. SOUTHWOOD SMITH ON FEVER.

A Treatise on Fever. By Southwood Smith, M.D., Physician to the London Fever Hospital. London printed, 1829. Philadelphia reprinted. Carey and Lea, 1830: pp. 448. . . 393

XIII. CHERVIN ON YELLOW FEVER.

De l'opinion des Médicines Americaines sur la Contagion ou la non Contagion de la Fievre Jaune, ou Réponse aux allegations de MM. les Docteurs Hosack et Townsend, de New York, publiées, l'an dernier, dans la Revue Médicale, la Gazette de France et le New York Enquirer. Par N. Chervin, D.M.P. 1829. pp. 192.

Examen des Nouvelles opinions de M. le Docteur Lassis, concernant la Fièvre Jaune, ou Reponse à la brochure que ce Médicin vient de publier sur les causes des épidemies en général, et plus particulierement de celle qui a régné, l'an dernier à Gibraltar. Par N. Chervin, D.M.P. Aout 1829. pp. 46.

Examen des opinions de M. le Docteur Castel touchant la pretendue contagion de la Fièvre Jaune, ou Reponse à un écrit intitule; De la contagion dans les effections febriles. Par N. Chervin, D.M.P. Juillet 1830. pp. 51.

Lettre à M. le Docteur Monfalcon de Lyon, sur la Fièvre Jaune qui à régné à Gibraltar en 1829. Par N. Chervin, D.M.P. Aout 1830. pp. 34. 429

XIV. PHARMACOPŒIA OF THE UNITED STATES.

The Pharmacopœia of the United States of America; by authority of the National Medical Convention held at Washington, A.D. 1830. John Grigg. Philadelphia, 1831; pp. 298. 441

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Physiology.—1. On Pulmonary Absorption and Exhalation. 2. Animal Electricity. 456

II. Pathology.—3. Endemic Parotiditis. 4. Ischuria Renalis. 5. Hæmatopedesis. 6. Effects of Posture on the Pulse in Health and Disease. 7. Cancer and Ulceration of the Colon. 8. Dropsy of the Liver. 9. Instance of Universal Hypertrophy. 10. Puerperal Peritonitis with Perforation of the Œsophagus. 11. Spinal Apoplexy. 458

III. Therapeutics.—12. On Strychnia in the treatment of Paralysis. 13. On external Medication. 14. Pertussis arrested by the use of Belladonna and Hydrocyanic Acid. 15. Treatment of Paralysis. 16. Stammering cured by the long continued use of Cathartics. 17. Treatment of Fevers. 18. Convulsions, treated by Frictions of Tartar Emetic. 19. Large doses of Ipecacuanha in Dysentery. 20. On the efficacy of Belladonna in a case in which the evacuation of fœcal matter was attended with much pain. 21. Treatment of Venereal Diseases. 467

IV Medical Jurisprudence.—22. Alleged poisoning with Arsenic. Counter Report. 476

V. Materia Medica.—23. Action of Acids upon Salicine. 24. Quantity of Cinchona and Quinia in the different kinds of bark. 25. Magnetism a remedy in various diseases. 26. Economical method of preparing Distilled Water. 27. Dangerous effects from the external application of Stramonium. 28. Hydrocyanic Acid in Cheese. 29. Savine employed in Uterine Hemorrhage. 30. Hyoscyamus Niger. 31. Croton Oil as an External Irritant. 32. Rhatany used to prevent Abortion. 33. Anti-epileptic powder of Dr Kahleis. 481

VI. Surgery.—34. Amputation at the Knee Joint. 35. Radical Cure of Hernia. 36. Excision of the Elbow Joint. 37. Diseases of the Joints. 38. Excision of the Elbow-joint. 39. Ligature successfully applied to the Subclavian Artery, by Valentine Mott, M.D. of New York. 40. Longitudinal Section of the Lower Jaw. 41. Varix. 42. Dressing of Wounds. 43. Ununited Fracture. 44. Lithontripty. 485

VII. Midwifery.—45. Prolapsus uteri. 46. Stethoscopic signs of Pregnancy. 493

VIII. Chemistry.—47. Analysis of the Pulmonary Perspiration. 48. Effects of Respiration of different Gases. 49. Mutual Action of Blood and Atmospheric Air. 50. Osmazome. 51. New Method for obtaining Iodic Acid; by M. Serullas. 52. New Test for Organic Alkalies. 53. Chloroxalic Acid. 499

MISCELLANEOUS.

Hobson's Essay on the History, Preparation and Therapeutic uses of Iodine.—Plumbe on the present value of Vaccination.—Smith's Medical and Surgical Memoirs.—Williams's Rational Exposition of the Physical Signs of the Diseases of the Lungs and Pleura.—Manec's Coloured Drawing of the Great Sympathetic Nerve.—Harris's Oration before the Philadelphia Medical Society, 1831.—Ellis's Medical Formulary, third edition.—European Populations.—Duncan on the Injection of air into the cavity of the Chest in certain Diseases affecting its Viscera.—Officers of the Philadelphia Medical Society for 1831.—Dr Gibson's Correction of an Error in the Review of Dr Gross's Work on the Bones and Joints in the 21st Number of this Journal.—Miami University.—Medical Department.—Notices. 503
